

Operation Table

OPERATION TABLE

OPTB - 500

The Plantech Motorised Operation table manufactured and developed, exclusively for the ophthalmic surgeon is very stable and versatile. Its ergonomic design ensures both surgeon and patient comfort.

The Plantech OPTB-500 has a maximum height of 890 mm and minimum height of 610 mm ideal for standing or sitting working position.

Choice of head sections give easy access to the patient, whilst allowing maximum leg-room and space for equipment pedals. The adjustable cushioned head-rest ensures patient comfort and restraint during operations

Patient comfort is assured with deep antistatic poly-urethane cushions which are easy to clean and are wide enough to allow patient to lie with their arms by their sides without the need for additional armbands.

The adjustable wrist support provides comfort and stability while operating.

Trendelenberg (head low position) and reverse trendelenberg facility ensures safety during emergencies.

** Subject to change in design and / or specification without advance notice.
